ABOUT CHAUD DEVANT

As an international supplier and manufacturer of chefwear and servicewear we are the perfect partner for the restaurant industry across the globe. With a dedicated team of 40 employees we create, produce and deliver clothing that enables chefs and service workers to give their best every single day. Our clothing is delivered to more than 23 countries via a network of dealers and wholesalers.

Quick delivery and high quality service

Thanks to our own 1.600m² warehouse in Amsterdam, we are able to supply directly from stock, causing us to have quick delivery times and high quality service.

30 Years of experience

With 3 decades of experience in chefwear and servicewear you rely on our expertise. We build sustainable relationships and strive for long-term collaboration with our partners.

Inspiring Showroom and Personalized Advice

We're happy to visit your business to offer tailored advice, or you're welcome to explore our inspiring showroom to discover our full collection.

Comprehensive Online Product Information

In our user-friendly online store, you'll find detailed product descriptions, specifications, and images. This information is easy to share on your own platform or online store.

Joy and passion

Above all, we work with passion and joy to serve you as good as possible.

Why choose CHAUD DEVANT®

CHAUD DEVANT stands for versatility and inspiration, our clothing is designed for passionate people who enjoy creating a wonderful experience for their customers every day. Their drive is our motivation- we create and inspire to support them.

Sustainability first

We are aware of the environmental impact of clothing and set out to minimize our footprint as much as possible. We choose among other things high end, recycled and eco-friendly materials and produce our wear in Europe.

On top of that, we give used clothing a second life with our Recycled Chefwear-collection. But our most important pillar in the field of sustainability remains that we work on it continuously, every day.

Unique design and quality

Let your business shine with our unique designs, the high quality and ideal fit from CHAUD DEVANT. With our wide variety of colours there is always a perfect match for your restaurant available.

Stylish design and consciously produced

Our clothing is designed in Amsterdam and produced with love in European studios. With our diverse collection we are an end-to-end supplier of chef- and service wear.

**WE HOPE YOU LOVE CHAUD DEVANT®
AS MUCH AS WE DO CREATING IT!**

team Chaud Devant

SUSTAINABILITY AT CHAUD DEVANT

Restaurants, caterers, and hotels are increasingly focused on sustainability and social responsibility. We share this commitment and feel a strong responsibility to contribute to these goals. At CHAUD DEVANT, sustainability is a core aspect of our business. We understand the environmental impact of the textile industry and strive to minimize it by implementing innovative, responsible practices that encompass both our products and our processes.

Responsible Sourcing

We select materials that are not only of high quality but are also ethically and sustainably sourced. This includes using organic cotton, recycled polyester, Tencel, and other environmentally friendly materials that help reduce our ecological footprint. To make our more sustainable items easier to find, we developed the FEEL GOOD label. An item in our collection receives the FEEL GOOD label if at least 30% of the material used meets our sustainability standards (such as recycled polyester, recycled cotton, organic cotton, or Tencel).

Production Process

Our clothing is designed in Amsterdam and consciously produced at our certified workshops in Europe. We aim for efficiency in our production processes by reducing energy consumption and waste. Our facilities use advanced technologies to minimize environmental impact, and we are constantly seeking ways to further improve our methods.

RECYCLED FABRICS

CIRCULAR

PRODUCED IN EUROPE

Circular Economy

Our goal is to extend the lifespan of every garment, and we actively explore opportunities for recycling and upcycling our products to reduce waste and promote a

circular economy within our industry. To support this, we developed the Recycled Chefwear line, made exclusively from high-quality recycled materials. This new clothing line is created by breaking down returned hospitality textiles and combining them with other recycled fibers. The final fabric composition includes 15% recycled hospitality textiles, 52% recycled PET polyester, and 33% recycled cotton. This versatile, circular collection features items like white chef jackets, aprons, waist aprons, and T-shirts in an elegant blue-gray shade called Blue Melée.

Transparency

We believe in complete transparency across our supply chain. This enables us to continuously monitor and enhance the ethical aspects of our production,

ensuring that all our partners share our high standards for sustainability and working conditions.

Community Engagement

We are committed to supporting the communities where we operate by sourcing locally whenever possible and participating in initiatives that promote social responsibility.

At CHAUD DEVANT, we are committed to a more sustainable future and will continue to pursue innovation in all our practices to make a positive impact on the world.

Here are some of our partners, memberships, and certified organizations we work with:

Trade with purpose

AMFORI BSCI

CHAUD DEVANT works with European studios that are Amfori BSCI Members. Amfori BSCI is a well-known quality label that guarantees good, safe working conditions and decent wages. We also visit all studios personally on a regular basis.

TENCEL®

The fabrics used for our chefwear are very carefully selected. That is why Tencel® is found in a number of our products. This fabric keeps you cool and is highly absorbent. It even dries faster than cotton. It goes without saying that we want only the very best materials for our products!

Waste2Wear

WASTE2WEAR®

With Waste2Wear®, CHAUD DEVANT does its part to help make the world a little greener. Products with the Waste2Wear label are made of recycled plastic bottles. These bottles are processed into polyester, which is then used to create our RPB collection.

OEKO-TEX® STEP AND OEKO-TEX® STANDARD 100

Many of our fabrics are certified with the OEKO-TEX® SteP or OEKO-TEX® STANDARD 100 quality label. This means that they are produced in a sustainable manner with few or no chemicals. In other words, honest clothing for today's eco-conscious chefs!

ECOLABEL®

An environmental label that has been assigned to certain products within a wide range of product groups, including textiles. There must be a reduced impact on the environment. Depending on the product group, the following aspects are considered: energy consumption, emissions to air and water, prohibition of the use of harmful substances, packaging waste, organic agriculture and recycled raw materials.

RECYCLED CHEFWEAR

For our new Recycled Chefwear collection, we gather used garments from the hospitality industry. We shred them into bits and pieces after which we blend them with other recycled materials.

The result is our brand-new Recycled Chefwear collection. The collection integrates the comfort and excellent fit of our traditional Chefwear, with a reduced ecological food print.

JOIN THE EVOLUTION!

Old chef jackets, bibs and other hospitality textiles, can be handed in at one of our dealers.

CONTACT US FOR ADDITIONAL INFORMATION ABOUT THE DROP-OFF POINTS OF RECYCLED CHEFWEAR

“THE PROCESS”

The Recycled Chefwear collection is made from 100% recycled materials, 15% of the final fabric is recycled chefwear.

The final fabric includes, among other things, old hospitality textiles supplemented with recycled fibers of cotton and PET polyester. A circular collection that blends beautifully with other items from the CHAUD DEVANT collection.

PLAID SUAVE 134

BUJUTSU

The Bujutsu chef jacket was designed for chef Nick Bril of The Jane** restaurant in Antwerp and is inspired by Japanese style. The collection is modern, sleek and distinctive, with diagonal, asymmetrical pockets that give the items a fresh look. The collection colours are also unique: the chef jackets are not only available in black and white, but also in green. The earthy tones of the bib aprons and waist aprons fit in perfectly with these colours. These colourful outfits draw all eyes towards the kitchen!

P. 46, 80, 100,

PURE DENIM

Pure Denim Collection is strong, raw, and has character. That's why it's the perfect blend of fashion and workwear. Real denim is alive! The more you wash it, the more it comes to life. Wash and treat it as you want. Pure Denim takes on your identity. Besides Indigo Blue and Antra there are beautiful earth shades: green, grey, brown and mud. Be daring and combine the style that fits you. Everybody loves denim! The Pure Denim collection is not suitable for industrial cleaning.

P. 65, 68, 69, 75, 76, 77, 78, 81, 94, 104, 105, 106, 107, 135, 139, 143, 144, 145

LEATHER 70

Authentic, lightweight and timeless. From bistro to food truck or trendy bar, the Leather collection fits in anywhere. The innovative combination of cowhide and polyester makes the leather bib and waist aprons lightweight and less vulnerable to stains. All of the apron ties are fully adjustable. The 'raw edge - single stitch' finish gives the collection its recognizable, tough appearance.

P. 79, 93, 113

NORDIC

Go for a pure, fresh look with our Nordic collection! The Nordic chef jacket was designed for master chef Joris Bijdendijk from the RIJKS** restaurant in Amsterdam. The idea was to develop a new chef jacket in a shirt style. The items in this collection therefore feature freedom of movement and comfort. CHAUD DEVANT found inspiration in the Scandinavian trends: the Nordic items are sleek and simplistic, but with sophisticated details. If you're looking for user-friendly chefwear, this collection is for you!

P. 28, 58, 74, 90, 101, 111

BASIX

The Basix collection can be recognized by its diverse colors and simple models. If you're looking for a plain apron or chef jacket, this is the place to be!

P. 116 - 133

VELVET

The Velvet collection has a cool and authentic look. Available in three different models and completely on trend in the colours Blue, Red, Yellow, Green and Black. The rib velvet gives the aprons and bib aprons a robust character with just that touch of luxury.

P. 72, 92, 102

RECYCLED PLASTIC BOTTLES

CHAUD DEVANT has developed a special material for its Recycled Plastic Bottles Collection! Made of 100% recycled plastic bottles in an eco-friendly fabric (200 gr/m²). A white, satin woven fabric made of 65% recycled polyester and 35% environmentally friendly cotton. The fabric has a stain repellent finish that makes it easy to remove stains and an Easy Care finish, making the fabric very easy to iron. Goal: Full Cradle to Cradle solution. Recycling our CHAUD DEVANT RPB Collection! Care what you wear!

P. 33, 83, 112, 114

INDIAN SUMMER

The "Indian Summer" collection is characterised by its minimalist design and practicality. All products (fabric, yarn and labels) are made from 100% recycled material. With this, we strive step by step toward a better future.

P. 88, 98

FX

Freedom of movement is the most prominent feature of the FX collection. The entire collection is made of lightweight fabrics, both with and without texture. The fine jersey fabric guarantees unlimited flexibility. This fabric is made of Tencel® and polyester produced from recycled plastic bottles. The combination of these materials is not only environmentally friendly, but also ensures that the fabric dries quickly. Whether you prefer short, half-length or roll-up sleeves, the collection has it all. Make every day in the kitchen a comfortable day!

P. 19, 20, 22, 24, 26, 42, 44, 55, 56, 60, 136, 140

SENSE

With the Sense clothing line, CHAUD DEVANT has opted for the ultimate blend of class and comfort. The line is specially made for serving staff and is as feminine as it is practical, as comfortable as it is stylish. The Sense collection is extensive, with various distinctive items and styles that go together perfectly. This makes it possible to combine the different products to create a totally unique style.

P. 148 - 155

MICHELIN

Discover our latest footwear, designed specifically for the demanding world of hospitality. As the official premium partner of the prestigious French Bocuse d'Or team, Chaud Devant delivers top-tier quality to professional kitchens and hospitality environments. Our Michelin Soles provide unparalleled grip and comfort, while the sleek Italian designs ensure an elegant look. Choose from models with aluminum safety toes for maximum protection in the kitchen, or lightweight options without safety toes for added comfort in front-of-house settings. These unisex shoes not only create a cohesive and stylish look for your team but also prioritize safety and functionality. Chaud Devant is the sole brand that seamlessly combines chefwear and footwear into a complete team concept, from kitchen to floor.

RECYCLED PLASTIC BOTTLES

CHAUD DEVANT has developed a special material for its Recycled Plastic Bottles Collection! Made of 100% recycled plastic bottles in an eco-friendly fabric (200 gr/m²). A white, satin woven fabric made of 65% recycled polyester and 35% environmentally friendly cotton. The fabric has a stain repellent finish that makes it easy to remove stains and an Easy Care finish, making the fabric very easy to iron. Goal: Full Cradle to Cradle solution. Recycling our CHAUD DEVANT RPB Collection! Care what you wear!

**FLAVOUR WITH SPICE,
SERVE WITH LOVE**

SENSE COLLECTION

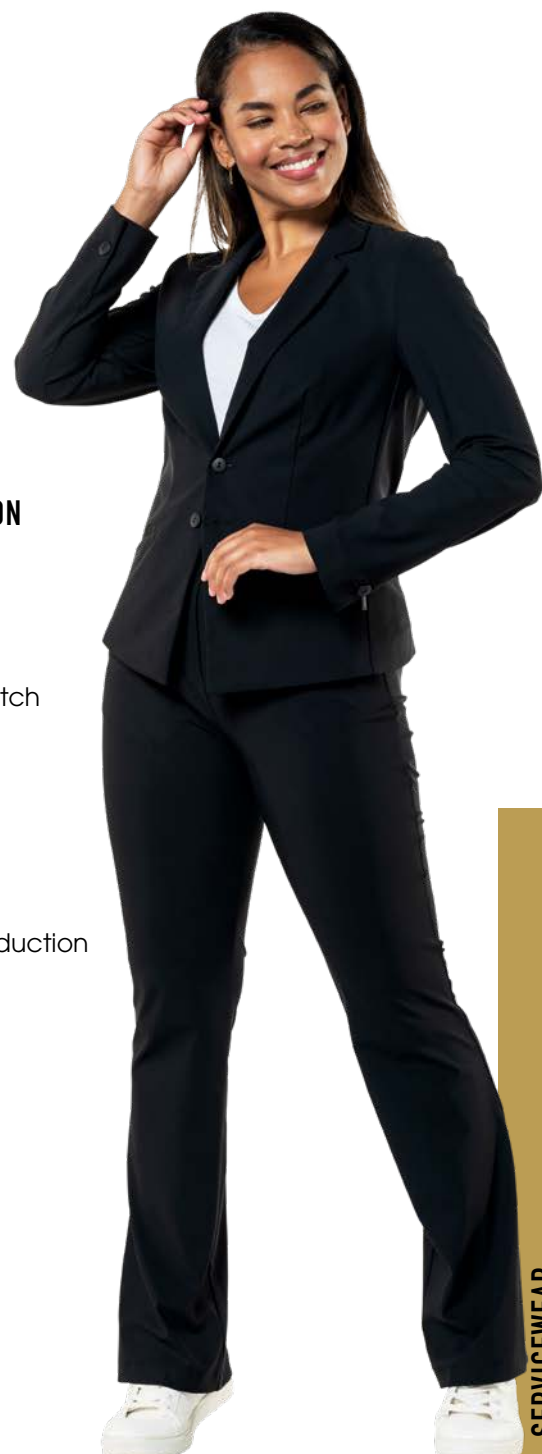

With the Sense clothing line, Chaud Devant has opted for the ultimate blend of class and comfort.

The line is specially made for serving staff and is as feminine as it is practical, as comfortable as it is stylish.

The Sense collection is extensive, with various distinctive items and styles that go together perfectly. This makes it possible to combine the different products to create a totally unique style. Every item is named after a spice to reflect the tasteful character of the collection.

MATERIAL SENSE-COLLECTION

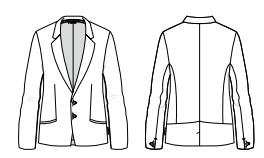

- The Fabric has a matte look
- Comfortable fit by excellent stretch
- Quick drying
- Wrinkle free
- Premium Italian "Travel" Quality
- Sustainable production
- Environmentally friendly

QUALITY & TRADEMARKS

FEEL GOOD®

To make these more sustainable items a lot easier to find, we developed the FEEL GOOD label. An item from our collection receives the FEEL GOOD label if at least 30% of the material is sustainable in our eyes (*recycled polyester and/or recycled cotton and/or organic cotton and/or TENCEL*).

* Every year, we will evaluate whether the above definition is still adequate.

TENCEL®

The fabrics used for our chefwear are very carefully selected. That is why Tencel® is found in a number of our products. This fabric keeps you cool and is highly absorbent. It even dries faster than cotton. It goes without saying that we want only the very best materials for our products!

OEKO-TEX® STEP AND OEKO-TEX® STANDARD 100

Many of our fabrics are certified with the OEKO-TEX® STeP or OEKO-TEX® STANDARD 100 quality label. This means that they are produced in a sustainable manner with few or no chemicals. In other words, honest clothing for today's eco-conscious chefs!

AMFORI BSCI

CHAUD DEVANT works with European studios that are Amfori BSCI Members. Amfori BSCI is a well-known quality label that guarantees good, safe working conditions and decent wages. We also visit all studios personally on a regular basis.

SECONDLIFE®

SecondLife® is a fabric made from recycled plastic bottles. It can be industrially cleaned, making it highly suitable for chefwear. The combination with TENCEL® results in a jersey fabric that is flexible, lightweight and provides exceptional freedom of movement. This fabric can be found in the FX collection.

WASTE2WEAR®

With Waste2Wear®, CHAUD DEVANT does its part to help make the world a little greener. Products with the Waste2Wear label are made of recycled plastic bottles. These bottles are processed into polyester, which is then used to create our RPB collection.

ECOLABEL®

An environmental label that has been assigned to certain products within a wide range of product groups, including textiles. There must be a reduced impact on the environment. Depending on the product group, the following aspects are considered: energy consumption, emissions to air and water, prohibition of the use of harmful substances, packaging waste, organic agriculture and recycled raw materials.

CARE INSTRUCTIONS

For a proper treatment of your chef's outfit, please refer to the care label with washing instructions at the inside of the garment. We recommend that you wash the garment before first use: at 30 degrees on a short program with a small amount of washing detergent. Choose an anti-wrinkle program if possible. Wash colored garments separately. To preserve the press buttons on the chef jackets, they should not be pressed in the laundry.

CARE SYMBOLS

This symbol gives information about the possibility and the kind of a domestic washing process by machine or by hand. The ciphers in the washing tub specify the maximum temperature in C, which must not be exceeded.

The triangle is an indication for a bleaching process. A white triangle means any bleaching agent allowed.

This symbol specifies information on the possibility of domestic drying. The circle inside the square specifies the drying in a domestic tumble dryer. The dots within the circle in the square specify the temperature setting during drying. 1 dot: low temperature of 60 °C, 2 dots: normal temperature exhaust temperature max. 80 °C

This symbol specifies ironing or pressing. The dots within it give the maximum ironing or pressing temperatures. 1 dot: Maximum temperature of 110 °C. Steam iron may cause irreversible damage. 2 dots: Maximum temperature of 150 °C. 3 dots: Maximum temperature of 200 °C.

The circle gives information on the possibility of professional dry or wet cleaning. The letters within the circle specify the solvents that can be used. The P is used for Professional dry cleaning in tetrachloroethene.
