J. HARVEST & FROST
CORPORATE SHIRTMAKER

J. HARVEST & FROST

At J. Harvest & Frost, our mission is simple: we aim to bring passion, style, and functionality into your workday. We believe that quality design, fine aesthetics, and precision craftsmanship are essential to thriving in work and life, and we all need surroundings that inspire us.

WE ARE SHIRTMAKERS

Our core collection offers meticulously crafted, high-quality shirts that are both affordable and exceptionally made. We aim to add that intangible element of style that enhances each day. Founded in 2014 through a collaboration between James Harvest Sportswear—rooted in collegiate fashion—and Frost, known for tailored, finely cut garments, we brought two traditions together to create something truly unique.

From the start, we've been on a journey to design shirts that meet the demands of any moment, whether at the office or out for the evening. Quality, durability, and timeless style are our guiding principles. Inspired by early 20th-century fashion and classic designers, we are committed to making garments we would proudly wear ourselves.

ALWAYS EVOLVING

As people's needs evolve, so does our pursuit of the perfect shirt. We continuously refine every stitch, fabric, and detail because, to us, great design is the sum of impeccable craftsmanship, premium materials, and a whole lot of heart. Alongside beauty and function, sustainability is key to our vision; we're integrating organic cotton, recycled materials, and bio-based packaging to ensure our shirts look good and do no harm.

So, keep working toward your goals with passion.

We'll make sure you're always dressed for the occasion.

Nothing beats the clean look of a solid dress shirt. But even at a solid color there are still some features that make our shirt stand out from the crowd. The shirt is crafted in our favorite high performance twill texture. This gives the perfect sheen to it, results in a substantial good hand feeling and makes it less transparent than similar white dress shirts. A split yoke in back, medium cut-away collar and a 35 mm. raised placket set the edge for this sharp, but classic shirt.

SOLID COLORS. 100% LONG STAPLE 2-PLY COMPACT COTTON, 124 G/M². NON-IRON PATENTED ENVIRONMENTAL TREATMENT. TAPED MAIN-SEAMS. 4 MM-THICK BUTTONS. LONG SLEEVE. SINGLE ANGLE CUFF, WITH EXTRA BUTTONHOLE FOR CUFFLINKS. 849 KR

We might be one of very few brands that, at the present, can handle the combination NON IRON & STRETCH. It's a tricky combination, you see, which requires quite a lot of thinking, testing and developing to get all this performance into one single shirt. Luckily, we do enjoy the hard-work & developing. RB121 comes with stylish details, such as a passepoiled chest pocket and matching contrast colors at the right spots.

OXFORD WEAVE. 95% LONG STAPLE 2-PLY COMPACT COTTON, 5% ELESTANE, 145 G/M². NON-IRON PATENTED ENVIRONMENTAL TREATMENT. TAPED MAIN-SEAMS. BUTTON DOWN COLLAR. LONG SLEEVE. ROUND EDGE-CUFF, WITH EXTRA BUTTONHOLE FOR CUFFLINKS. 4 MM-THICK BUTTONS.

YB55 Jacquard

REGULAR ♂ 2905501 S-4XL

SLIM ♂ 2905502 XS-XXL

WOMAN CONTEMP ♀ 2905505 XS-4XL

A micro-patterned shirt in a jacquard-weave made in a mix of organic cotton and recycled polyester. It has our popular hidden button down collar and discrete details such as contrast placket line and contrast button thread.

A solid colored shirt with a subtle dobby structure combined with a soft collar and cuffs gives the shirt a smart & modern look. When you get the shirt in hand you will immediately recognize its more to it than catches the eye. The feather-light weight at first, silky soft hand-touch from lyocell as well, and the incredible stretch effect for your comfort, makes this shirt a master of performance. The shirt is also easy-care treated, so you can simply wash & wear it if you like.

JACQUARD-WEAVE, MICRO-PATTERNED, 60% ORGANIC COTTON / 40% RECYCLED POLYESTER, 120 G/M². EASY CARE TREATMENT. SOFT ROUND EDGE CUFF, WITH CUFFLINK HOLE. 4 MM-THICK BUTTONS.

WOMAN ♀ 2904903 XS-4XL

A double 100's jacquard fabric, woven with white dots on navy background for a modern and sophisticated look. Modern cutaway collar with a soft interlining and hidden button down. Combine it with the full suit or together with jeans, either way it will serve you good.

Our developed fabric is made with a mechanical stretch for better comfort. The mechanical stretch is a new innovative way of giving comfort to a 100% natural long stapled, compact cotton fabric. It will give natural elasticity to the shirt of up to 12% stretch the weft way, and still keep our great Non-iron performance. This is innovative shirt-making at its best, and we enjoy taking part of it.

NAVY JACQUARD FABRIC, WOVEN WITH WHITE MICRO DOTS. 100% LONG STAPLED COMPACT COTTON- DOUBLE 100'S. 130 G/M². INNOVATIVE MECHANICAL STRETCH. NON-IRON PATENTED ENVIRONMENTAL TREATMENT. TAPED MAIN-SEAMS.. LONG SLEEVE. SOFT ROUND EDGE -CUFF, WITH EXTRA BUTTONHOLE FOR CUFFLINKS. PEARL-LOOK BUTTONS,

REDUCING PLASTIC & EMBRACING RECYCLED MATERIALS

At J. Harvest & Frost, we are dedicated to sustainability by actively reducing plastic use across our products. We've eliminated all plastic components from our shirt packaging, choosing instead eco-friendly alternatives. Additionally, we use a high percentage of recycled textiles, including elastane and polyester, to minimize waste and contribute to a circular economy.

OEKO-TEX STANDARD 100 CERTIFICATION

To ensure our garments meet high standards of safety and environmental care, we are integrating OEKO-TEX Standard 100 certification into many of our products. This certification guarantees that our fabrics are thoroughly tested and free from harmful substances, making them safe to wear and better for the planet.

Responsibility & sustainability

CLIMATE IMPACT AND EMISSIONS

Research shows that 80 % of the climate impact from Swedish clothing comes from the production phase*. By doubling the active lifespan of a garment, the climate impact can be almost halved. Thus, the most important thing we can do is to increase the longevity of the products. That is why classic design and quality products - a concept that will never be out-of fashion - is the very core of everything we do. In addition, work actively with our suppliers regarding energy efficiency, energy source and production techniques to further reduce our total impact.

A significant share of a garment's total environmental footprint is traceable to the choice of material. Therefore, we strive to use more preferred materials - such as recycled polyester and organic cotton - whenever possible. However, all materials have advantages and disadvantages from a sustainability perspective and priority is always quality and durability to enable a long lifecycle.

For transportation, that also significantly contributes to greenhouse gas emissions, we have to main strategies. Firstly, we constantly work with evaluating our processes to streamline our routines and plan our purchases well in advance. Within the New Wave Group, shipments of different sister companies are clubbed together as much as possible so that containers are always optimally filled during transport. We are also very careful which partners we choose to work with and only use well-known carriers we know are at the forefront from a sustainability perspective, both for sea freight and land transport. Secondly, we strive to influence the transportation companies that we are working with. New Wave Group is a member of "Clean Shipping Index", that aims to impact the shipping companies to use cleaner vessels by ranking the most high-performing ships.

PROGRESSIVE WORK WITH CHEMICALS

All suppliers must follow the requirements in our Restricted Substance List. The list has been designed in accordance with legislation such as REACH, but also taking industry recommendations and standards such as Oeko Tex into account. Through our parent company New Wave Group, we take part of the Swedish Chemicals Group organized by RISE to receive the most updated information on chemical legislation and developments. With this information we can actively work to reduce and replace chemicals in line with best available techniques.

IMPROVING WORKING CONDITIONS

We are aware of the great responsibility that comes with sourcing goods in countries which have not come as far as us when it comes to working conditions and environmental issues. We must ensure that the business operations of our suppliers respect national requirements as well as international conventions on human rights. Successful work requires devotion and patience. Many of the challenges we face are global problems like poverty and malfunctioning welfare systems. In this sense, social compliance does not offer a quick fix. We believe it is essential to be presented on-site. For this reason, we have local offices in Asia taking care of the everyday work with supplier auditing, monitoring and dialogue. Our full-time CSR staff are educated and well-experienced on labor conditions and environmental aspects of the production sites. Their work is leading the development.

CODE OF CONDUCT – AMFORI BSCI

Our Code of Conduct summarizes what we expect from all our suppliers when it comes to social and environmental responsibility. It contains requirements such as minimum wage, working hours, prohibition of child labor and several other requirements from global frameworks such as the ILO Conventions and the UN Declaration of Human Rights. Through New Wave Group we are a member of amfori BSCI (Business Social Compliance Initiative) and have adopted the amfori BSCI Code of Conduct. Today, more than 2000 companies all over the world have joined amfori BSCI and have adopted the code. Together we reach out to approximately 30 000 unique suppliers worldwide, which empowers our voice and influence in social dialogue. In addition to internal audits and supplier visits, we are obliged to implement and follow up the Code of Conduct through third-party audits.

Amfori BSCI is a commitment, and the most important work begins when the inspection is completed, and the findings are to be remedied. Therefore, it is not permitted to use amfori BSCI as a label or a guarantee for individual products. The amfori BSCI logo may only be used to prove membership so that the customer can feel confident that we take long-term responsibility - even for suppliers who need to improve.

INTERNATIONAL ACCORD

New Wave Group has signed the International Accord for Health and Safety in the Textile and Garment Industry. The original Accord – or the Accord on Fire and Building Safety in Bangladesh – came into force in 2013, only weeks after the Rana Plaza disaster where a factory building collapsed. New Wave Group signed the agreement, which was a legally binding agreement for improved safety in the textile industry in Bangladesh with focus on structural, electrical and fire safety. The agreement meant, among other things, that factories undergo electrical and building inspections as well as training and education in fire safety. Now the original Accord has developed into the International Accord, which New Wave Group has also signed. In addition to fire and building safety, the International Accord also covers general work environment, and the ambition is to expand the program to other production countries, hence the name change. The Accord is a unique initiative that has a significant impact on the daily life of millions of textile workers. We are proud to be a part of this initiative.

RECYCLING FOR A SUSTAINABLE SOCIETY

To collect and recycle waste packages is a wonderful way to reduce environmental impact and create cradle-to-cradle circulation. We embrace the national collecting system where we operate. In Sweden, we are affiliated with FTI (Förpackningsinsamlingen) and comply with Producer Responsibility obligations.

PREPARING FOR UPCOMING LEGISLATIONS

Driven by the European Green Deal, we are facing many new laws and regulations related to sustainability the coming years. For example, the Corporate Sustainability Reporting Directive (CSRD), and the Ecodesign for Sustainable Products Regulation (ESPR). All place higher demands on traceability and transparency and will have a great impact on our operations in the future. Therefore, we put a lot of focus on working our processes and introducing support systems to be able to manage increased demands on information and transparency.

We are serious about our Non-Iron...

AT J.HARVEST & FROST WE TAKE GREAT PRIDE IN MAKING THE FINER WEAR WORK. TO VISUALIZE THE APPEARANCE OF THE SHIRT BETTER FOR EACH MODEL, WE CREATED A 6/6 GRADING SYSTEM. OUR SYSTEM IS BASED ON THE APPEARANCE SYSTEM THAT WELL KNOWN TESTING CENTERS LIKE SGS ARE USING. THEIR SYSTEM HOWEVER HAS 5 GRADES WHERE N° 5 IS THE HOLY GRAIL OF NON-IRON. UNOBTAINABLE WITH THE CURRENT TECHNOLOGY WITHOUT STEAM IRONING THE SHIRT. IT IS THE BRIGHT SHINING PRIZE WORTH STRIVING FOR. WE ARE CLOSE BUT WE'LL LET YOU KNOW WHEN WE REACH IT.

...and about our materials

WE CAN TALK FOR HOURS ABOUT THE DISTINCT DIFFERENCES BETWEEN A TRADITIONAL TWILL WEAVE AND ITS LESSER-KNOWN SIBLING, THE ROYAL TWILL WEAVE. THIS MIGHT MAKE US A BIT LONELY AT DINNER PARTIES, BUT IT MAKES US ABSOLUTELY AMAZING AT CONSTRUCTING THE MOST STYLISH AND FUNCTIONAL SHIRTS IMAGINABLE. LET'S TALK.

TWILL WEAVE
A fabric characterized by a discreet diagonal rib pattern, offering durability and a soft drape, commonly used in shirts and trousers.

ROYAL TWILL WEAVE
A refined version of the traditional twill, featuring a tighter weave more pronounced rib pattern and a subtle sheen, suitable for formal shirts.

BEDFORD WEAVE
A durable fabric with a ribbed texture, similar to corduroy but with less pronounced ribs.

OXFORD WEAVE
A basket weave fabric combining two yarns woven together, resulting in a slightly textured, soft, and breathable finish, ideal for both casual and formal shirts.

JACQUARD WEAVE
A complex weaving technique that creates intricate patterns directly into the fabric, adding texture and visual interest without the need for pattern printing.

LINEN WEAVE
A plain weave fabric made from flax fibers, known for its breathability and lightweight properties, making it ideal for warm-weather clothing.

CORDUROY WEAVE
A durable fabric featuring a distinct raised "cord" or wale texture, created by weaving extra sets of fiber into the base fabric to form vertical ridges, commonly used in trousers, jackets, and shirts.

PIQUÉ KNIT
A textured knit fabric with a raised pattern, often used in polo shirts, providing a subtle texture and breathability.

INTERLOCK KNIT
A double-knit fabric with a smooth surface on both sides, offering a soft hand feel and good stretch, commonly used in t-shirts and underwear.

KING KNIT
A specific type of knit fabric known for its luxurious feel and intricate patterns, often used in high-end garments.

REGULAR FIT SHIRTS

ALL MEASUREMENTS ARE INDICATIVE WITH MINIMUM TOLERANCE OF 1 CM.
